

## CONNECTION DIAGRAM

---

## INTEDED USE

---

The EN-S308 series recessed lights are ideal for lighting a room or for highlighting countertops. Their 38 degrees beam produces precise illumination of 700 to 750 lumens.

Their white, satin nickel or black finish and colour temperature in warm, neutral or cold white harmonize perfectly with any décor.

Use the built-in switch to select desired CCT during installation (3000K, 4000K or 5000K).

## WARNING

---

1. Install this product in accordance with the applicable electrical code. This product is designed for installation by a qualified person or electrician.
2. Use the transformer supplied with the unit. Using another transformer will void the warranty.
3. This product is designed for indoor use and is not protected from moisture.
4. This product must be connected using the connectors built into the product.

## WARRANTY

---

This product is warranted against manufacturing defects for a period of five (5) years from the date of purchase and does not include the other products shown on this sheet, if any. For a complete description of the warranty, visit [www.innovadel.com](http://www.innovadel.com) or contact our technical support. Any modification, alteration, improper installation of the product, or cutting of connectors, will void the warranty.
